Attention!

Before you start

Make sure to have a scratch-free surface when connecting your **IXXI Cards**. We recommend placing a blanket underneath, for example.

Wipe your wall with a **dry cloth** to make sure it is completely free of dust.

Learn more: **ixxi.com/preparations**

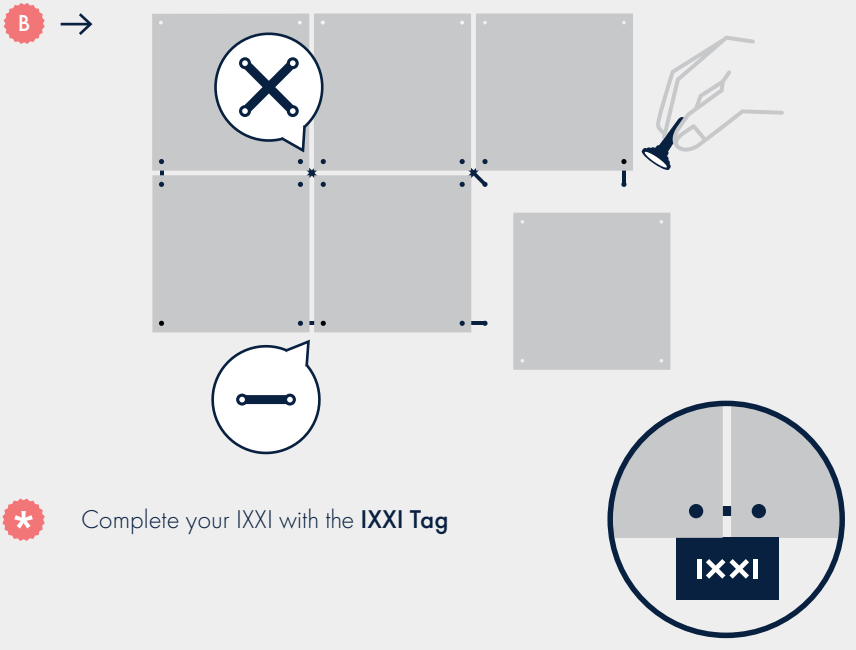
Step 1

Connect the IXXI Cards

1. Lay out the **IXXI Cards** (they're packed in the correct order), according to the provided preview with the image facing upward.

   A. Connect the cards using the **X -** and **I Connectors**.
   Use the **Click Tool** to prevent any damage.

   B. Leave the top row empty. This row will be attached to the **Wall Clips** in Step 5.



* Complete your IXXI with the **IXXI Tag**

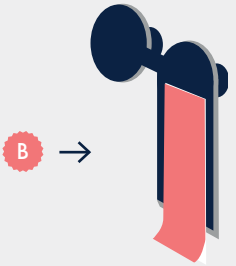
Step 2

Prepare the Wall Clips

1 Attach a **Powerstrip** to the back of each **Wall Clip**.

A Make sure the red line sticks out from under the Wall Clip.

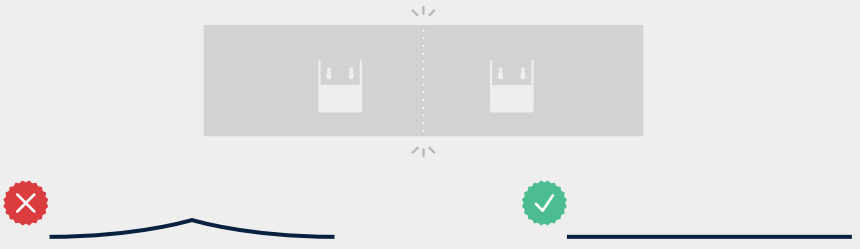
B Don't remove the protective cover on the back just yet.



Step 3

Prepare the Hanging Tool

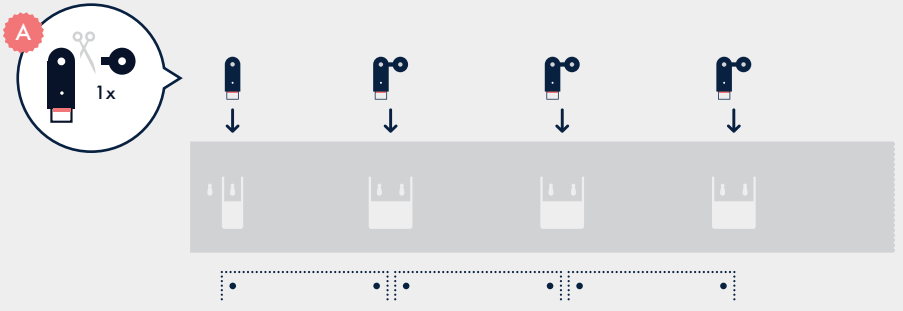
1 Unfold the **Hanging Tool** and make sure it's completely flat.



2 Fill the Hanging Tool with the **Wall Clips**.

A Cut the first Wall Clip in half and add it to the first slot.

B Add 1 extra Wall Clip to the amount of Cards



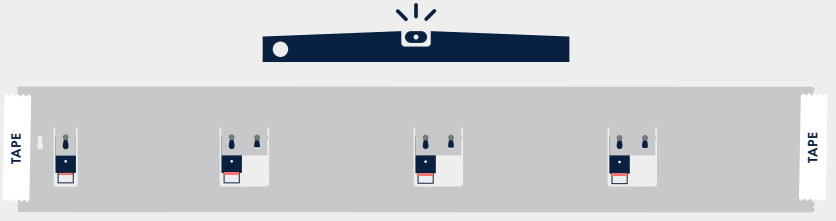
B → **Example:** 3 Cards = 4 Wall Clips

Step 4

Position the Hanging Tool on your wall

1. Place the **Hanging Tool** at the desired height on your wall and secure it with tape.

   A. Make sure it's flat and leveled (use your **Water Level**).

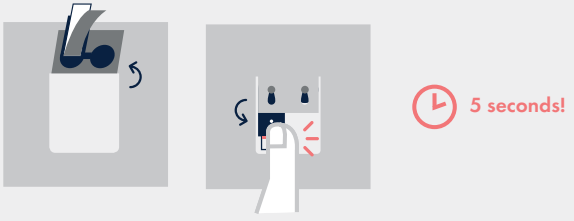


* *Is your **IXXI wider than the Hanging Tool**? After Step 5 we'll explain how to extend it.*

Step 5

Attach the Wall Clips to the wall

1. One by one:
   - A. Fold up the hatches of the **Hanging Tool**.
   - B. Remove the protective cover from the **Powerstrip**.
   - C. Fold down the hatch and press the **Powerstrip** to the wall during 5 seconds..



2. Carefully remove the **Hanging Tool** from the **Wall Clips**.

* *Is your IXXI **wider than the Hanging Tool**? In the next step we'll explain how to extend it.*

Step 5+

For IXXI's wider than the Hanging Tool

* If your IXXI is **not wider than the Hanging Tool**, you can skip this step.

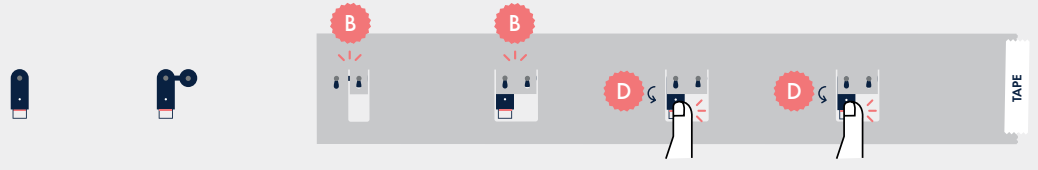
1 When you've chosen a large-sized IXXI, the **Hanging Tool** may not be wide enough. Let's re-use the Hanging Tool to add more clips to your wall.

A Refill the **Hanging tool** with additional **Wall clips** (leave the two first hatches empty).

B Attach the first two hatches to the last two **Wall Clips** on the wall.

C Level the **Hanging Tool** and secure the far end with tape.

D Fold down the hatches and press down the **Powerstrips**, as in Step 5.



* ***Tip:*** *For extra support, fasten the first and last* ***Wall Clip*** *with a* ***Push Pin****.*

Step 6

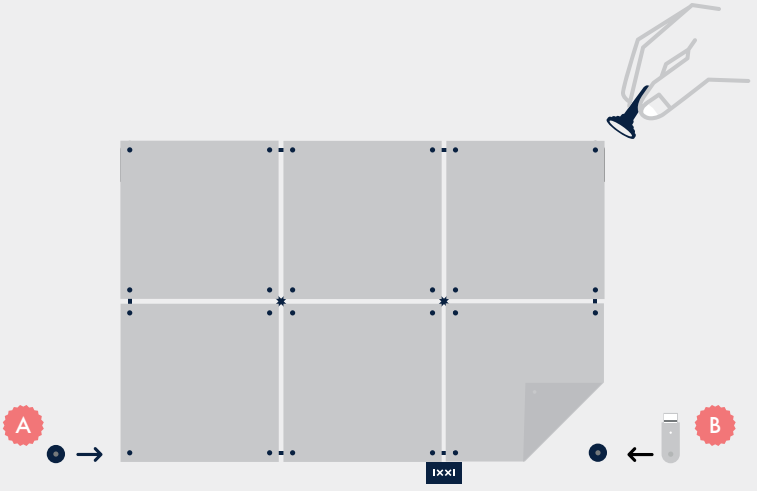
Place your IXXI on the wall

1. Click your **IXXI** onto the **Wall Clips** on your wall.

2. Cut the last **Wall Clip** in half.

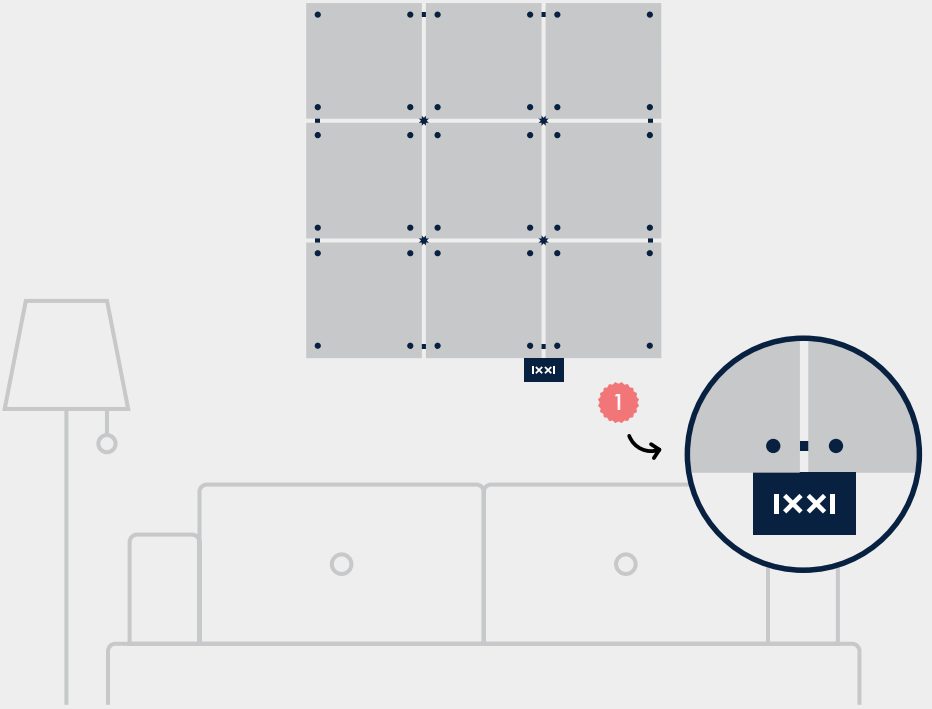
   A. The two **round Wall Clip** parts that you cut off, can be clicked onto the bottom corners.

   B. Alternatively you could use two **long Wall Clip** parts upside down and attach these to the wall with **Powerstrips**, for extra reinforcement.



All finished!

1. Complete your IXXI with the **IXXI Tag**!
2. Share your masterpiece with the world using **#ixxi**
3. Well done! You've just taken your first steps into IXXI'ing your world!



IXXI

How to

Carefully remove your IXXI

1. Remove your IXXI from the **Wall Clips**.
2. Underneath the **Wall clip** you see part of the **Powerstrip** sticking out.
   - A Put pressure on the **Wall Clip** with one hand.
   - B With your other hand, gently and slowly pull the **Powerstrip** down bit by bit.
   - C **Important:** Do not pull the Powerstrip towards you!

* ***Tip:*** *If the **Powerstrip** doesn't come loose easily, you could try carefully heating the Powerstrip with a blow dryer.*
